Dear Ma'am/Sir,

I was excited to notice an opportunity for a Web Developer role as a passionate developer inspired by Syntactics. HTML, CSS, JavaScript Libraries, Ionic and Laravel Backend (Models, Migration, Routes, Controller, and Eloquent/Query builder) is something I'm familiar with. With my recent experience in web development, I am certain that I have the ability to contribute effectively to Syntactics.

I gained a lot of experience during my internship at Syntactics Company. Applications and websites. I was in charge of the backend process for one of my projects, which was to design a web-based application for an Online Interview Scoring Web Application. My internship also gave me valuable teamwork and communication skills that will help me contribute significantly to Syntactics Company.

Thank you for taking the time to review my qualifications. I look forward to sharing more about my skills and experiences. You may reach me at 09454458331 or via email at JOYLAN.PANUNGCAT@dnsc.edu.ph.

Best Regards,
Joylan E. Panungcat
